

# Massive Earthquakes Around The World (Magnitude $\geq 7$ ) (1965-2017)

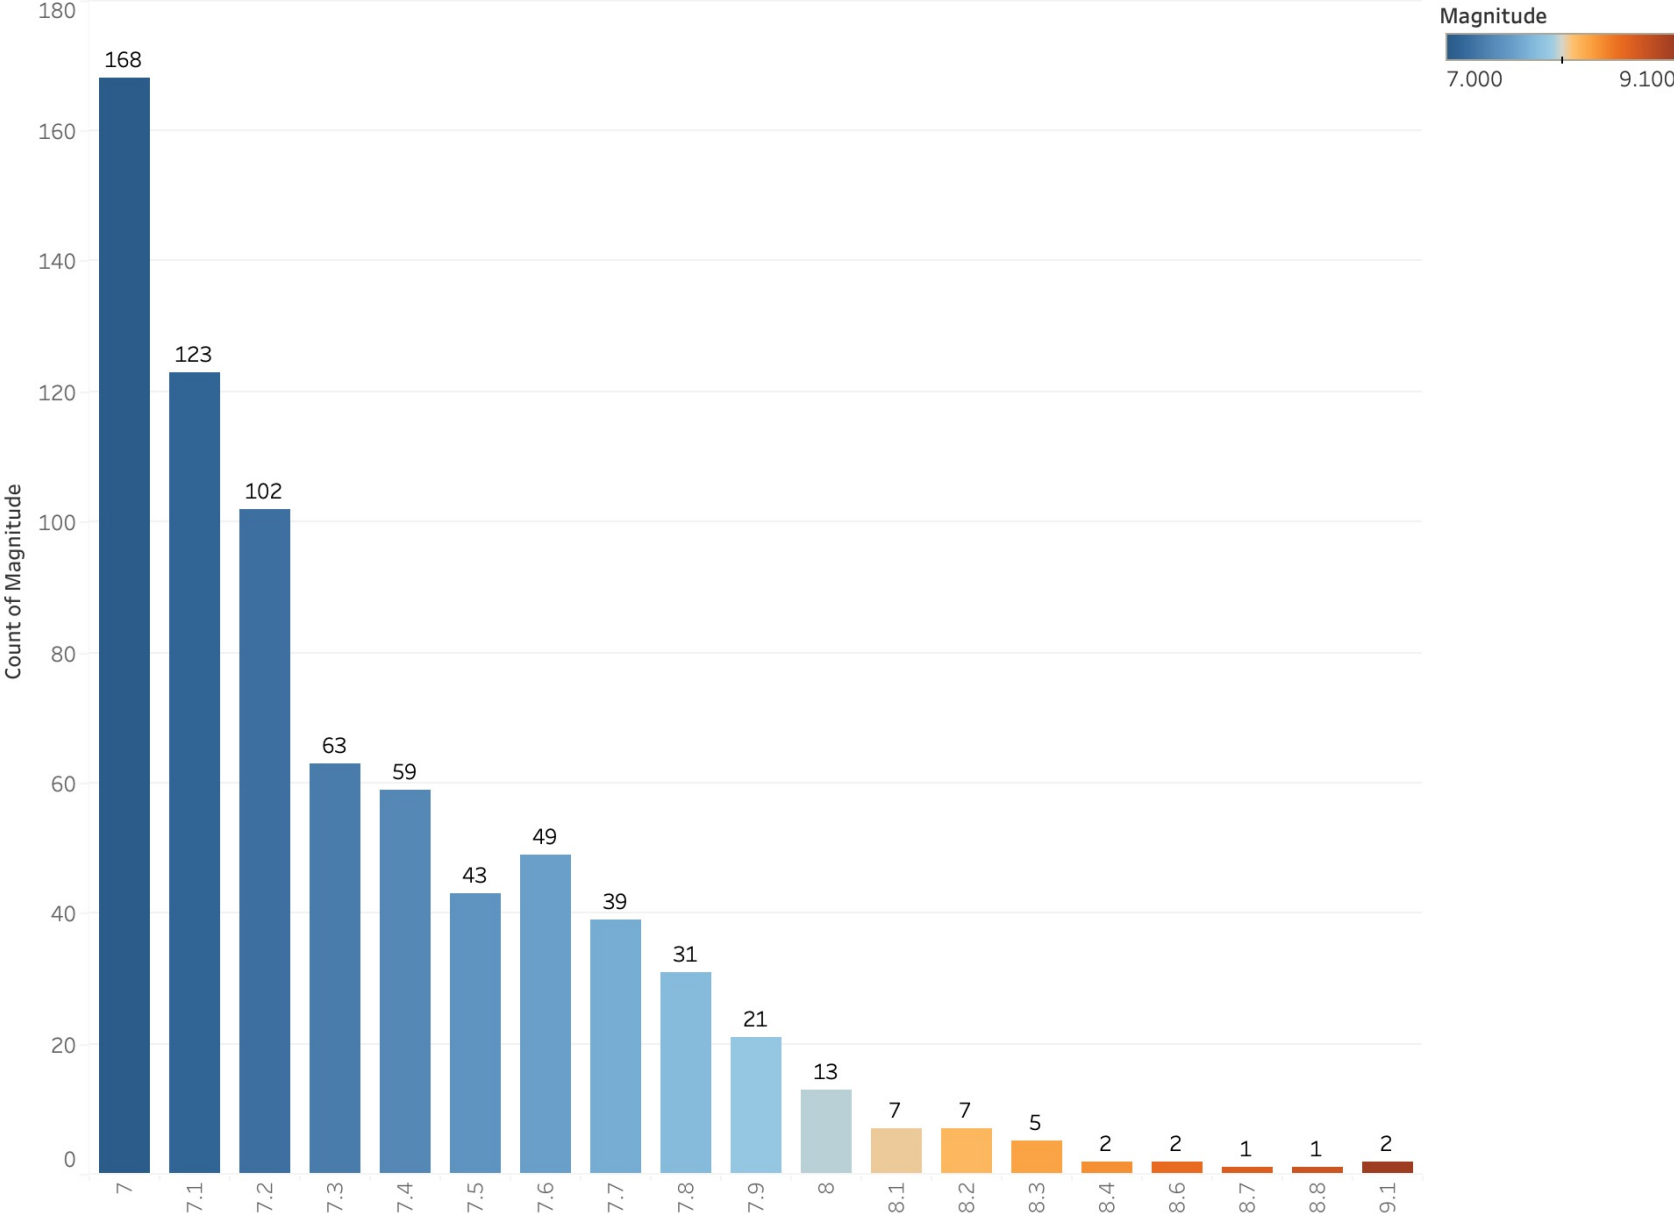

Map based on Longitude and Latitude. Color shows details about Magnitude. Size shows details about Magnitude. The data is filtered on Magnitude as an attribute, which ranges from 7 to 9.1.

# How many massive earthquakes in each year?

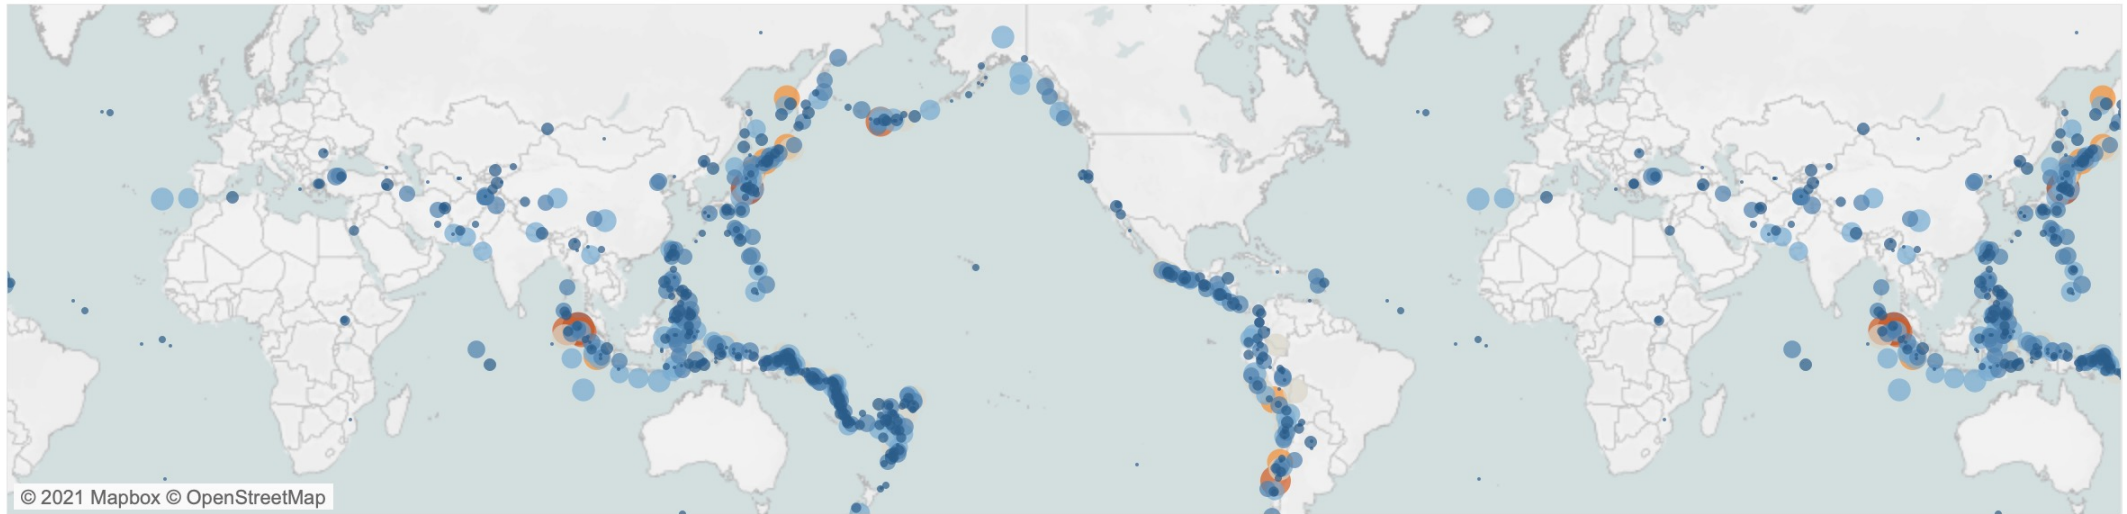

Count of Magnitude for each Date Year. Color shows details about Magnitude. The data is filtered on Magnitude as an attribute, which ranges from 7 to 10.

Distributions Across Magnitudes

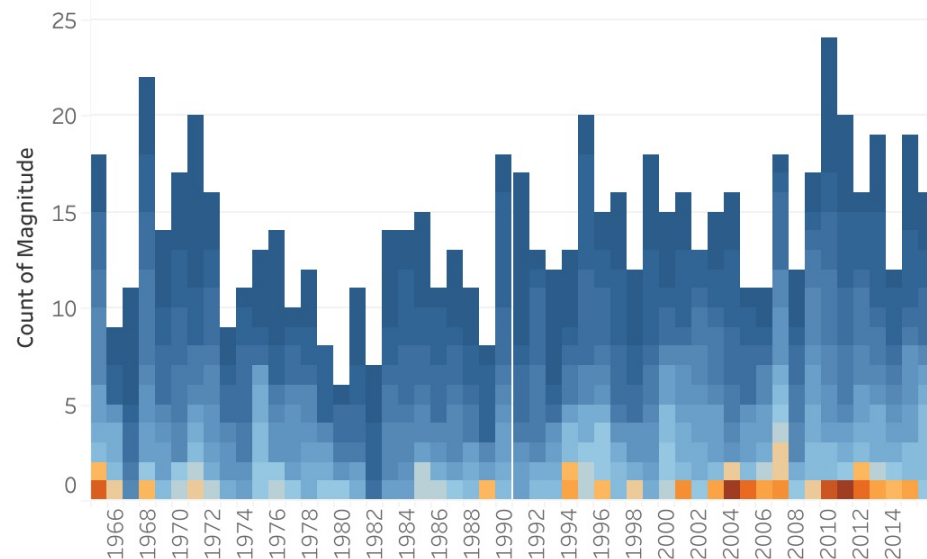

Count of Magnitude for each Magnitude. Color shows details about Magnitude. The marks are labeled by count of Magnitude. The data is filtered on Magnitude as an attribute, which ranges from 7 to 9.1.
